

Mobil fence

Instructions for assembly and use

Usage:

Mobil fences from  are used to barricade your building sites and events or is taken universal for mobil fencing.

General note:

Only components in perfect condition and original equipment may be used.

Only persons, who are familiar with the instructions, may install the mobil fences.

The rules for the prevention of accidents must be observed.

Assembly:

The foot elements are set up at the place of work on load-carrying underground in the distance of the fence fields. It is to be made certain that the foot elements stand right-angled to the mobile fence field (1). The fence elements are to be set up in such a way that the hook is in the eye (4). Additionally the mobile fence elements can become secured by the fastener set for mobile fence (5).

The attachment of tarpaulins or posters increases the wind attack region and must be proven by the workers!

Technical data:

Standpipes :	Ø 42.4 mm
Cross tube :	Typ A: Ø 33.7 mm
Cross tube :	Typ B: Ø 27.0 mm
Mesh size:	105 mm x 290 mm
Wire:	Ø 4 mm
Surface:	galvanized

Mobil fence Model A:

	Order no.	Weight
Element 3.5 x 2.0 m	29350	24.0 kg
Element 2.2 x 2.0 m	29160	17.0 kg
Element 3.5 x 1.2 m	29170	17.0 kg
Element 2.2 x 1.2 m	29180	13.0 kg

Mobil fence Model B:

Element 3.5 x 2.0 m	29360	22.0 kg
